WORKSHOPS ATTENDED:

- Attended a workshop on Computer Networks at ANITS college in 2023 by Candela.

STRENGTHS:

- Quick learner with good grasping ability.
- Positive attitude.
- Able to work smart.

PROJECTS:

- **Title :** Blood Management System

Summary:A blood management system website is an online platform designed to facilitate the process of blood donation and management. It typically includes features such as donor registration, donor scheduling, blood donation tracking, and inventory management. The goal of these websites is to ensure a steady supply of blood for patients in need, while also making it easy and convenient for donors to give blood. Blood management system websites are used by blood centers, hospitals, and other healthcare organizations to track and manage blood donations and supplies, and to communicate with donors and staff. Overall, these websites play a critical role in maintaining the safety and availability of blood products for transfusion.

Role: As a team lead, played a significant role in designing and developing the project. Also guided my team members.

ACHIEVEMENTS:

- Secured Institute topper in 3-1 Semester,2023.
